

Aaron I. Plex Sulá

Research Assistant / Research Associate

Gainesville, FL (willing to relocate)

Email – plexaaron@ufl.edu | Portfolio – aaronplex.github.io/PlexOnline/

Professional Summary

Ecological modeler and data scientist with end-to-end experience spanning smallholder agriculture, plantation management, and global-scale predictive analytics. Strong background in machine learning, spatial environmental modeling, and large geospatial datasets (10–100+ GB). Proven ability to translate complex models into decision-support tools for climate-driven forecasting, pathogen and pest management allocation, and global biosecurity.

Mathematical & Computational Skills

- ❖ **Epidemiological Modeling:** time-series & multidimensional epidemiological analysis, SIR compartmental, agent-based & species distribution models, weather- & climate-based models (including climate change), environmental similarity, climate matching, heat & cold stress models, seed systems models, and scenario analysis.
- ❖ **Geospatial Analysis:** spatial joins, zonal & focal statistics, re-projection, aggregation, stacking
- ❖ **Geospatial Data Management:** [NASAPOWER](#), [CHELSA](#), [WorldClim](#), [HydroATLAS](#), [SoilGrids](#), CMIP6 (climate and weather data), [CROPGRIDS](#), [MapSPAM](#), [Cropland CROS](#), and [GBIF](#) (vegetation data), GenBank (genomic data), EPPO Global Database.
- ❖ **Model Validation:** k-fold CV, spatial block CV, AUC-ROC, TSS
- ❖ **Data Scale & Infrastructure:** HPC workflows (100+ GB), parallel processing (UF HiPerGator)
- ❖ **Machine Learning:** Random Forest, Boosted Trees, GAMs, Bayesian, MaxEnt, Ensembles, PCA, k-means, Agglomerative Hierarchical Clustering, NMDS, CNNs for Image Analysis, Feature Engineering
- ❖ **Statistical Modeling:** MCMC, GLMMs, TERGMs, Kolmogorov-Smirnov test, ANOVA
- ❖ **Genomic Analysis:** Bayesian clustering, phylogenetic trees, AMOVA, BEAST, MEGA, RDP4
- ❖ **Programming:** R (developer, 5+ years), Git/GitHub (advanced, 3+ years), Python (Keras, Numpy, PyTorch, Tensorflow; 1+ year), JavaScript (basics)
- ❖ **Communication:** Technical reporting, stakeholder presentations, geospatial visualization

Professional affiliations

- ❖ Department of Plant Pathology, University of Florida.
- ❖ Global Food Systems Institute, University of Florida.
- ❖ Emerging Pathogens Institute, University of Florida.

Education

- 2022 – 2026 **PhD candidate in Plant Pathology** (GPA 4/4)
University of Florida, USA
- 2016 – 2019 **BS in Agricultural and Animal Sciences** (Top 3/245)
Zamorano University, Honduras
- 2013 – 2015 **High School Diploma in Agricultural and Animal Sciences** (Top 10/156)
Escuela Nacional Central de Agricultura (ENCA), Guatemala

Awards (9)

- 2026 Travel Award for the Bring Them In program, Bayer
- 2026 Student Speaker Award, Plant Science Symposium
- 2025 Nominee for the 2025 GBIF Graduate Researchers Award for the United States
- 2024 New Frontiers Scholars Award, Corteva

Aaron I. Plex Sulá

2019	Bachelor's Thesis Award of Distinction, Zamorano University
2019	1 st Place, Oral Presentation Winner in Zamorano Investiga, Zamorano University
2016 – 2019	Merit Recognition for Academic Excellence, Zamorano University
2016 – 2019	Full Bachelor Scholarship Award by FONAGRO-ENCA 2015
2015	1 st Place, Painting Competition, ENCA
2013 – 2015	Honor Recognition for Discipline Excellence, ENCA
2013 – 2015	Full High-School Scholarship Award by ENCA

Resource Mobilization (Grants)

- ❖ **Plex Sulá AI**, Garrett KA. Global biogeography of 1518 pathogens in major terrestrial agroecosystems. *NSF 21-621: Human-Environment and Geographical Sciences (HEGS) Program – Doctoral Dissertation Research Improvement (DDRI)*. Submitted on September 10, 2025: \$30,700.

As an international student in the US, I was not eligible to be listed as a PI or Co-I on certain federally funded grants; the contributions below reflect intellectual and technical input into proposal development.

- ❖ *Contributed to USDA APHIS grant proposal – Network analysis of regulatory pests in Florida: human-mediated transport and increased surveying efficiency. Plant Protection Act Section 7721 (PPA 7721) – Plant Pest and Disease Management and Disaster Prevention Program (PPDMDPP)*. Submitted on September 26, 2025: \$180,184.
- ❖ *Contributed to grant application funded by USDA NIFA – Sustaining avocado production in the face of the lethal laurel wilt disease (USDA-NIFA SCRI 2024-51181-43302; funded \$5M+)*
- ❖ *Contributed to a grant proposal funded by USDA APHIS (AP21PPQS&T00C195). A smart surveillance and mitigation platform. (PPA 7721 – 2023; funded \$98K).*

Publications

Journal articles (12)

- ❖ **Plex Sulá AI**, Keshav K, Adhikari A, Choudhary M, Mouafo-Tchinda RA, Robledo Buritica J, Shah S, Garrett KA. **geohabnet: An R package for mapping habitat connectivity for biosecurity and conservation**. Accepted, *Methods in Ecology and Evolution*. Preprint – [arXiv:2510.24955](https://arxiv.org/abs/2510.24955).
 - Led this research project, from conceptualization to final publication.
- ❖ **Plex Sulá AI**, Sarwar MA, Ali S, Qureshi N, Maqbool R, Saleem K, Singh PK, Ali Z, Garrett KA, Naveed ZA. **Wheat diseases and pests in Pakistan: a nationwide assessment**. Accepted, *Phytopathology*. DOI: [10.1094/PHYTO-11-25-0365-R](https://doi.org/10.1094/PHYTO-11-25-0365-R)
 - Led this research project, from conceptualization to final publication.
- ❖ Mouafo-Tchinda RA, **Plex Sulá AI**, Etherton BA, Okonya JS, Valentine Nakato GV, Xing Y, Robledo Buritica J, Adhikari A, Blomme G, Kantungeko D, Nduwayezu A, Kreuze J, Kroschel J, Legg J, Garrett KA. 2026. **Pest and pathogen communities in food security crops across climate gradients: Anticipating future challenges in the Great Lakes region of Africa**. *Agricultural Systems* 233: 104619. DOI: [10.1016/j.agsy.2025.104619](https://doi.org/10.1016/j.agsy.2025.104619)
 - Actively participated in this project from conceptualization to publication.
- ❖ Robledo J, **Plex Sulá AI**, Jaworski L, Mouafo-Tchinda RA, Andersen Onofre KF, Thomas-Sharma S, Garrett KA. 2025. **Expert knowledge elicitation: Accessing the big data in experts' brains**. *Phytopathology*

Aaron I. Plex Sulá

115(10):1245-1259. DOI: [10.1094/PHYTO-06-25-0220-FI](https://doi.org/10.1094/PHYTO-06-25-0220-FI)

- Co-led this research project, from conceptualization to final publication.

❖ **Plex Sulá AI, Orozco J. 2025. Contribution to the knowledge of Honduran flesh flies (Diptera: Sarcophagidae). *Biota Neotropica* 25(2): e20241740. DOI: [10.1590/1676-0611-BN-2024-1740](https://doi.org/10.1590/1676-0611-BN-2024-1740)**

- Co-led this research project, from conceptualization to final publication.

❖ **Etherton BA, Plex Sulá AI, Mouafo-Tchinda RA, Kakuhenzire R, Kassaye HA, Asfaw F, Kosmakos VS, McCoy RW, Xing Y, Yao J, Sharma K, Garrett KA. 2025. Translating Ethiopian potato seed networks: Identifying strategic intervention points for managing bacterial wilt and other diseases. *Agricultural Systems* 222: 104167. DOI: [10.1101/2024.02.12.579952](https://doi.org/10.1101/2024.02.12.579952)**

- Evaluated the potential international (re)introduction of *Ralstonia solanacearum* race 3 biovar 2 in Ethiopia and globally (Fig. 5).
- Participated in the project conceptualization, result interpretation, manuscript writing, and response to reviewers.

❖ **Plex Sulá AI, De Col V, Etherton BA, Xing Y, Agarwal A, Ramic L, Bonaiuti E, Friedmann M, Proietti C, Thiele G, Garrett KA. 2024. What traits of collaboration networks are associated with project success? The case of two CGIAR agricultural research programs for development. *Agricultural Systems* 219: 104013. DOI: [10.1016/j.agsy.2024.104013](https://doi.org/10.1016/j.agsy.2024.104013)**

- Led this research project, from conceptualization to final publication.

❖ **Etherton BA, Choudhury RA, Alcalá-Briseño RI, Mouafo-Tchinda RA, Plex Sulá AI, Choudhary M, Adhikari A, Lin Lei S, Kraisitudomsook N, Robledo Buritica J, Cerbaro VA, Ogero K, Cox CM, Walsh SP, Andrade-Piedra J, Omondi BA, Navarrete I, McEwan MA, Garrett KA. 2024. Disaster plant pathology: Smart solutions for threats to global plant health from natural and human-driven disasters. *Phytopathology* 114(5): 837-1149. DOI: [10.1094/PHYTO-03-24-0079-FI](https://doi.org/10.1094/PHYTO-03-24-0079-FI)**

- Generated the global maps of vulnerability of plant landscapes to extreme events based on historical event records (Fig. 3).
- Participated in the project conceptualization, manuscript writing, and response to reviewers.

❖ **Alcalá-Briseño RI, Batuman O, Brawner J, Cuellar WJ, Delaquis E, Etheron BA, French-Monar RD, Kreuze J, Navarrete I, Ogero K, Plex Sulá AI, Yilmaz S, Garrett KA. 2023. Translating virome analyses to support biosecurity, on-farm management, and crop breeding. *Frontiers in Plant Science* 14:1056603. DOI: [10.3389/fpls.2023.1056603](https://doi.org/10.3389/fpls.2023.1056603)**

- Generated the map of international movement of germplasm materials for potato, sweetpotato, and Andean roots from the International Potato Center (Fig. 5).
- Participated in the project conceptualization, manuscript writing, and response to reviewers.

❖ **Etherton BA, Choudhury RA, Alcalá-Briseño RI, Xing Y, Plex Sulá A, Carrillo D, Wasielewski J, Stelinski L, Grogan KA, Ballen F, Blare T, Crane J, Garrett KA. 2023. Are avocados toast? A framework to analyze decision-making for emerging epidemics, applied to laurel wilt. *Agricultural Systems* 206: 103615. DOI: [10.1016/j.agsy.2023.103615](https://doi.org/10.1016/j.agsy.2023.103615)**

- Participated in the project conceptualization, result interpretation, manuscript writing, and response to reviewers.

❖ **Garrett KA, Bebbler DP, Etherton BA, Gold KM, Plex Sulá AI, Selvaraj MG. 2022. Climate change effects on pathogen emergence: Artificial intelligence to translate big data for mitigation. *Annual Review of Phytopathology* 60(16):1-22. DOI: [10.1146/annurev-phyto-021021-042636](https://doi.org/10.1146/annurev-phyto-021021-042636)**

- Participated in the project conceptualization, manuscript writing, and creating the frameworks in Figs. 1 and 2.

Aaron I. Plex Sulá

- ❖ Buddenhagen CE, Xing Y, Andrade Piedra JL, Forbes GA, Kromann P, Navarrete I, Thomas-Sharma S, Choudhury RA, Andersen Onofre KF, Schulte-Gelderman E, Etherton BA, **Plex Sulá AI**, Garrett KA. 2021. **Where to invest project efforts for greater benefit: A framework for management performance mapping with examples for potato seed health.** *Phytopathology* 112 (7): 1431-1443. DOI: [10.1094/phyto-05-20-0202-r](https://doi.org/10.1094/phyto-05-20-0202-r)
 - Mapped the importance of potato cropland locations in epidemics in Ecuador (Fig. 5) and Kenya (Fig. 6).
 - Participated in writing the manuscript and interpreting results.

Book chapters (2)

- ❖ Garrett KA, Thomas-Sharma S, Forbes GA, Hernandez Nopsa JF, **Plex Sulá AI**. 2023. **Climate change and plant pathogen invasions.** Chapter 3. In: Ziska L. *Invasive species and global climate change*, 2nd edition. *CAB International*: 22-49. DOI: [10.1079/9781800621435.0002](https://doi.org/10.1079/9781800621435.0002)
- ❖ Alcalá-Briseño RI, Etherton BA, **Plex Sulá AI**, Choudhury M, Mouafo-Tchinda R, Garrett KA. 2026. **Adapting vegetable disease management to climate change.** *Handbook of Vegetable and Herb Diseases*. DOI: [10.1007/978-3-030-35512-8_62-1](https://doi.org/10.1007/978-3-030-35512-8_62-1)

R package (1)

- ❖ Keshav K, **Plex Sulá AI**, Garrett KA. 2023. **geohabnet: Geographical risk analysis based on habitat connectivity.** Comprehensive R Archive Network (CRAN): <https://cran.r-project.org/web/packages/geohabnet/index.html>

Manuscripts in review (3)

- ❖ **Plex Sulá AI**, Batuman O, Cellier G, Dufault NS, Etherton BA, Hodges A, Lowe-Power TM, Paret M, Penca C, Schroeder K, Takeuchi Y, Stilian E, Suder P, Tonnang H, Wang Y, Garrett KA. **GIRAF 1.0: A unified global framework to anticipate plant pest invasions.** Under peer review at *PNAS*. Preprint – [bioRxiv 2026.04.23.720440](https://doi.org/10.1101/2024.02.12.580019).
 - Leading this research project, from conceptualization to final publication.
- ❖ Mouafo-Tchinda RA, Etherton BA, **Plex Sulá AI**, Andrade-Piedra J, Ogero K, Omondi BA, McEwan M, Tene Tayo PM, Harahagazme D, Cherinet M, Gebeyehu S, Sperling L, Garrett KA. **Pathogen and pest risks to vegetatively propagated crops in humanitarian contexts: Geographic priorities for Cameroon and Ethiopia.** *Food Security*, March 2026. Preprint – [10.1101/2024.02.12.580019](https://doi.org/10.1101/2024.02.12.580019)
 - Created maps of disasters and humanitarian issues in Cameroon and Ethiopia (Fig. 1).
 - Actively participated in analysis, interpretation, and writing.
- ❖ Fontan R, Perez CM, Adhikari A, Mouafo-Tchinda RA, **Plex Sulá AI**, Robledo J, Etherton BA, Choudhary M, Sarwar MA, Naveed ZA, Garrett KA. **MetaQuestion: A web application for expert knowledge elicitation addressing plant health and applied ecology.** Target journal: *Methods in Ecology and Evolution*. Preprint – [10.48550/arXiv.2509.19393](https://doi.org/10.48550/arXiv.2509.19393)
 - Participated in conceptualization, testing, and writing.

Theses (2)

- ❖ **Plex Sulá AI**. 2019. *Insectos descomponedores asociados a carroñas de gallina y cerdo en Zamorano.* Escuela Agrícola Panamericana (EA) Zamorano, Honduras. Bachelor thesis, with a copy available at <https://bdigital.zamorano.edu/handle/11036/6607>
- ❖ **Plex Sulá AI**. 2015. *Guide to banana production in Tiquisate, Guatemala: Producción de banano Musa sapientum L. variedad Gran Enano en Tiquisate Escuintla: desfloración, desde y desmane (eliminación de frutos), monitoreo de araña roja Olygonichus zae y picudo del banano Cosmopolites sordidus, y riego por aspersión y microaspersión.* ENCA, Guatemala. High-school thesis, with a copy available at [Academia](https://www.academia.edu/).

Active Research Projects (8)

- ❖ **Plex Sulá AI**, Adhikari A, Arinaitwe W, Choudhary M, Choudhury RA, Delaquis E, Etherton BA, Yubak Dhoj GC, Hamelin FM, Jones C, McVay JD, Mouafo-Tchinda RA, Navarrete I, Robledo J, Tankam I, Tamagoua JP, With KA, Garrett KA. **Nine principles for geographic surveillance of biological invasions**. Target journal: *Methods in Ecology and Evolution*.
 - Leading this project, from conceptualization to final publication, pending co-authors' feedback.
- ❖ Mouafo-Tchinda RA, **Plex Sulá AI**, Etherton B, Choudhury R, Gazis R, Crane J, Garrett KA. **Forest-agriculture interface increases the global spread potential of laurel wilt**. Target journal: *Global Change Biology*.
 - Co-leading this project, from conceptualization to final publication, pending co-authors' feedback.
- ❖ **Plex Sulá AI**, Alcalá Briseño RI, Xing Y, Etherton BA, Andersen Onofre K, Andrade-Piedra JL, Avelino J, Carvajal-Yepes M, Cuellar W, Dita Rodriguez MA, Gazis R, Hodson D, Jarvis A, Kenyon L, Kreuze JF, Legg J, Mosquera Cifuentes GM, Sonder K, Mahabaleswara SL, Vallad G, Garrett KA. **Proactive global biosecurity priorities for pest invasions on crop landscapes and trade networks**. Target journal: *Nature Communications*. A PDF copy of this manuscript is available at [Plex Online](#).
 - Leading this project, from conceptualization to final publication.
- ❖ **Plex Sulá AI**, Suder P, Danner B, Hodges A, Tonnang HE, Garrett KA. **Designing proactive surveillance strategies based on geographic invasion risk assessment: The case of *Phthorimaea absoluta* in Southeast United States**. Target journal: *NeoBiota*.
 - Leading this project, from conceptualization to final publication.
- ❖ **Plex Sulá AI**, Garrett KA. **Pathogenica: A global data compilation of epidemiological traits of 1518 pathogens**. Target journal: *Scientific Data*.
 - 90% of Pathogenica is already in a tabular format, pending description of the methods.
 - In extramural collaboration with [Dr. Robert P. Guralnick](#) at the Florida Museum of Natural History, we are already using a portion of Pathogenica to build species distribution models for >600 plant species associated with wheat pathogens, and to map global host landscapes under current and future scenarios.
- ❖ Adhikari A, **Plex Sulá AI**, Mouafo-Tchinda RA, Robledo J, Etherton BA, Alcock K, Fontan R, Stronkowski IV TK, Garrett KA. **Rice health: the global emergence of false smut and ongoing threats in Nepal**. Target journal: *Plant Disease*.
 - Developed a global suitability model based on climate variables
 - Developed an introduction risk model based on international trade networks
- ❖ Jaworski LG, **Plex Sulá AI**, Alzamora A, George DM, Robledo J, Leandro M, Garrett KA. **A new disease threat to cacao in the Caribbean: developing strategies for frosty pod**. Target journal: *Plant Disease*.
 - Co-leading this project, from conceptualization to manuscript writing.
- ❖ **Plex Sulá AI**, Adikari A, Wang Y, Goss E, Garrett KA. **The global population genetic structure of Potato spindle tuber viroid in major agroecosystems**. Target journal: *Phytopathology*.
 - Leading this project, from conceptualization to final publication.

Teaching experience

2026	Workshop co-instructor	Mapping Habitat Connectivity for Biosecurity, Conservation, and Invasion Ecology: A Practical Workshop Using the geohabnet R Package , Ecological Society of America Annual Meeting, Salt Lake City, Utah, United States
2025	Workshop co-instructor	Tackling Global Challenges in Plant Pathology with AI: Forecasting, Imaging, and Protein Prediction , Plant Health 2025, Hawaii, United States (40 research participants). Contact reference: Jacobo Robledo Buritica, MS
2024	Laboratory instructor	Fundamentals of Plant Pathology , University of Florida (23 undergraduate students). Contact reference: Dr. Brantlee Spakes-Richter
	Course co-instructor	Epidemiology & Data Science , University of Florida (6 graduate students, 6 undergraduate students, 28 international participants). Contact reference: Dr. Karen A. Garrett
	Workshop co-instructor	R2M rapid risk assessment for diseases of cacao in the Caribbean & banana, cassava, potato, and sweetpotato in East Africa (3 undergraduate students). Contact reference: Dr. Karen A. Garrett
	Workshop co-instructor	Network Analysis in Plant Pathology Research Workshop , Plant Health 2024, Memphis, TN, United States (32 research participants). Contact reference: Dr. Ashish Adhikari.
2022	Workshop co-instructor	International Workshop on Network Analysis in Agricultural Systems , University of Agriculture Faisalabad, Pakistan (20+ participants). Contact reference: Dr. Zunaira Afzal.
2021	Course co-instructor	Impact Network Analysis Workshop , University of Florida, United States (9 undergraduate students). Contact reference: Dr. Karen A. Garrett.
2019	Co-instructor	Training Program on Small Grain Production (22 undergraduate students)
2015	Instructor	Training Program on Vegetable Production (18 high-school students)

Mentorship experience

Supervised two master's students at the University of Florida

- ❖ 2024-2025 – Stavan N. Shah, MSc in Computer Science
- ❖ 2023-2024 – Krishna Keshav, MSc in Computer Science

Mentored 13 undergraduate students in developing research projects at the University of Florida

- ❖ Fall 2025 – Amitha Karuppiyah (Horticultural Science), Atqiya Labibah (Microbiology), Samantha Waterston (Economics), and Shravya Sama (Statistics). Project: *A national assessment of rice health in Pakistan*
- ❖ Fall 2024 – Alejandra Alzamora (Data Science), Daniel Martin George (Computer Science), and Lauren Jaworski (Horticultural Science). Project: *Modeling the potential spread of frosty pod of cacao in the Caribbean region*
- ❖ Spring 2022 – Amogh Agarwal (Mathematics and Computer Science) and Lejla Ramić (Biological Engineering). Project: *Evaluating project success of global agricultural research collaboration networks*
- ❖ Spring 2022 – Eleni Stilian (Economics), Kyle Schroeder (Biology), and Piotr Suder (Mathematics and Statistics). Project: *Developing a geographic risk analysis for solanaceous pests in Florida and the surrounding area*

Advised 2 undergraduate students in their bachelor's thesis (Zamorano University, 2025)

Presentations

A. Invited Oral Presentation (1)

- ❖ **Plex Sulá A.** 2025. Proactive global biosecurity: Prioritizing pathogen risks using crop landscapes and trade networks under climate change. In the special session – From models to action: Global strategies for surveillance and management of plant disease spread. *Plant Health 2025*, Honolulu, Hawaii, USA.

B. Invited Webinars (4)

- ❖ **Plex Sulá A, Garrett KA.** 2025. GIRAF 1.0 for plant pests! A global invasion risk assessment framework. *International Pest Risk Research Group (IPRRG)*. December 9.
- ❖ **Plex Sulá A, Garrett KA.** 2025. A GIRAF for plant pests! Global invasion risk assessment framework. USDA APHIS Plant Protection and Quarantine Working Group, Raleigh, NC.
- ❖ **Plex Sulá A.** 2022. Global structures of trade networks to prioritize phytosanitary efforts for crop pathogen and pest spread: challenges and opportunities. *Institut National de la Recherche Agronomique (INRAE)*, France.
- ❖ Garrett KA, Etherton BA, **Plex Sulá A.** 2022. Scaling up of disease management to climate change. In Climate change – Emerging pathogens. *Plant Health 2022*, virtual session.

C. International Presentations (2)

- ❖ **Plex Sulá A*, Garrett KA.** April 9, 2024. Global host-pathogen infection networks in major terrestrial agroecosystems. *International Epidemiology Workshop*, Foz do Iguaçu, Brazil.
- ❖ **Plex Sulá A*, Choudhary M, Etherton BA, Mouafo-Tchinda RA, Garrett KA.** 2023. Proactive global biosecurity strategies: Priorities based on crop landscapes, trade networks, and the ecological niches of 930 pathogens. *International Congress of Plant Pathology*, Lyon, France.

D. Keynote and Plenary Session Presentations (4)

- ❖ Garrett KA, **Plex Sulá A.** 2022. Network analysis in agricultural systems to address grand challenges to food security. *International Symposium*, Faisalabad, Pakistan.
- ❖ Garrett KA, Etherton B, **Plex Sulá A.** 2022. Identifying effective locations for mitigation of emerging pests and diseases. *Entomological Society of America and APS Caribbean Division*, Puerto Rico, March 29th.
- ❖ Garrett KA, **Plex Sulá A.** 2021. Global change: Adapting coffee pest and disease management. Global change: Adapting coffee pest and disease management. Plenary session – keynote lecture. *28th Conference ASIC (Association for Science and Information on Coffee)* 2021.
- ❖ Garrett KA, Etherton BA, **Plex Sulá AI.** 2021. Key global networks for protecting plant health and food security: The connected networks of social, ecological, economical, cultural, and disease components of plant health. Oral lecture. *Global Plant Health Assessment (GPHA)*.

E. Competitive Presentations as Lead Presenter (13)

- ❖ **Plex Sulá A*.** 2026. GIRAF 1.0 for invasive microbes! A Global Invasion Risk Assessment Framework. *2026 Reshaping Nature Symposium*, Gainesville, FL.
- ❖ **Plex Sulá A*.** 2026. GIRAF 1.0 for plant pathogens! A Global Invasion Risk Assessment Framework. *2026 UF Plant Science Symposium*, Gainesville, FL.
- ❖ **Plex Sulá A*.** 2025. A GIRAF (Global Invasion Risk Assessment Framework) for plant pathogens! *2025 Joint Meeting of the Caribbean and Southern Division*, Gainesville, FL.
- ❖ Mouafo-Tchinda RA, **Plex Sulá A***, Etherton BA, Choudhury R, Gazis R, Faber B, Carrillo D, Crane J,

Aaron I. Plex Sulá

Garrett KA. 2025. A global integrated strategy for laurel wilt surveillance. *Plant Health 2025*, Hawaii.

- ❖ **Plex Sulá A***, Suder P, Garrett KA. September 5, 2024. Geographic surveillance and mitigation priorities for invasive pests and pathogens of solanaceous crops in Florida and globally. *Florida Tomato Conference 2024*, Clewiston, FL.
- ❖ **Plex Sulá A***, Adhikari A, Etherton BA, Mouafo-Tchinda RA, Robledo Buritica J, Garrett KA. July 27-30, 2024. Global host-pathogen infection networks in major terrestrial agroecosystems. *Plant Health 2024*, Memphis, TN.
- ❖ **Plex Sulá A***, Mouafo-Tchinda RA, Garrett KA. June 13, 2024. Global proactive surveillance strategies for plant diseases under climate change: The case of laurel wilt. *Corteva New Frontiers Conference*, Indianapolis, IN, United States.
- ❖ **Plex Sulá A***, de Toledo Franceschi B, Mouafo-Tchinda RA, Garrett KA. 2024. Proactive biosecurity priorities revealed by the global biogeography of 1000 plant pathogens. *Invasion Science Research Symposium*, Gainesville, FL, United States.
- ❖ **Plex Sulá A***, Avelino J, Choudhary M, Cuellar W, Etherton BA, Gazis R, Kreuze JF, Mouafo-Tchinda RA, Suresh LM, Garrett KA. 2023. Proactive global biosecurity priorities based on crop landscapes, trade networks, and the ecological niches of 930 pathogens. *Plant Health 2023*, Denver CO. DOI: [10.1094/PHYTO-113-11-S3.1](https://doi.org/10.1094/PHYTO-113-11-S3.1)
- ❖ **Plex Sulá A***, et al (17 co-authors). 2022. Translating cropland and trade connectivity for mitigation of emerging pathogens: Priority locations globally and focusing on the Americas. *Plant Health 2022*, Pittsburgh PA. DOI: [10.1094/PHYTO-112-11-S3.1](https://doi.org/10.1094/PHYTO-112-11-S3.1)
- ❖ **Plex Sulá A***, Alcalá-Briseño RI, Xing Y, Etherton B, Andrade-Piedra JL, Vallad GE, Garrett KA. 2022. Geographic disease risk analysis in the Caribbean and globally, with examples including potato and tomato. *Entomological Society of America and APS Caribbean Division*, Puerto Rico, March 27th.
- ❖ **Plex Sulá A***, et al (12 co-authors). 2021. Geographic disease risk analysis for major crops of Central America and Mexico: Regional analyses and global structures. *Plant Health 2021*, online. *Phytopathology* 111 (10s): S2.157. DOI: [10.1094/PHYTO-111-10-S2.1](https://doi.org/10.1094/PHYTO-111-10-S2.1)
- ❖ Xing Y, **Plex Sulá A***, Alcalá-Briseño RI, Choudhury R, Andersen KF, Garrett KA. 2021. Cropland connectivity: Best practices for incorporation in geographic risk analyses. *Plant Health 2021*, online. *Phytopathology* 111 (10s): S2.48. DOI: [10.1094/PHYTO-111-10-S2.1](https://doi.org/10.1094/PHYTO-111-10-S2.1)

F. Contributed Presentations (6)

- ❖ Choudhary M*, **Plex Sulá A**, Penca C, Lagos LC, Mouafo-Tchinda RA, Etherton BA, Garrett KA. 2023. Cut flower trade risk analysis to protect global agriculture from invasive pests and pathogens. *Plant Health 2023*, Denver CO. DOI: [10.1094/PHYTO-113-11-S3.1](https://doi.org/10.1094/PHYTO-113-11-S3.1)

Professional Experience

- | | |
|-------------|---|
| 2022 – 2025 | Graduate Research Assistant in Dr. Karen Garrett's lab <ul style="list-style-type: none"> ❖ Developed an ensemble of machine-learning algorithms to assess the global and local environmental suitability of invasive plant pests in R ❖ Co-developed the new R package geohabnet to evaluate habitat connectivity risk for the spread of pathogens, pests, and invasive species globally and nationally ❖ Developed a new trade network analysis to evaluate international pest introduction risk globally and nationally ❖ Constructed the new global dataset Pathogenica compiling the country-level distribution and seven epidemiological traits of 1518 plant pathogen species ❖ Co-conducted an expert knowledge elicitation to evaluate geographic risks of 33 major wheat diseases and pests in Pakistan ❖ Co-instructed two CURE (Course-based Undergraduate Research Experience) courses at the University of Florida |
| 2021 | Research Intern, University of Florida |
| 2019 | Undergraduate Research Intern in Dr. Gary Vallad's lab, University of Florida <ul style="list-style-type: none"> ❖ Set up <i>in-vitro</i>, greenhouse, and field trials to evaluate the efficacy of fumigants on Fusarium wilt of tomato (<i>Fusarium oxysporum</i> f. sp. <i>lycopersici</i>) ❖ Set up experiments for <i>ex vivo</i> multiplication of cucurbit downy mildew (<i>Pseudoperonospora cubensis</i>) ❖ Conducted visual screening of grey leaf spot of tomato (<i>Stemphylium lycopersici</i>) on greenhouse trials |
| 2019 | Undergraduate Research Associate, Department of Agricultural Sciences, Zamorano University <ul style="list-style-type: none"> ❖ Identified eleven fly species of forensic importance in Honduras |
| 2010 – 2015 | Smallholder Farmer, Guatemala <ul style="list-style-type: none"> ❖ Produced tomatoes, maize, green and dry beans, bell peppers, pea, tomatillo, and <i>Cucurbita pepo</i> in a small-scale family business. ❖ Acquired in-field experience with chemical control of major diseases and pests of the crops listed above (e.g., late blight of tomato, damping-off, thrips, whiteflies). |
| 2015 | Assistant Manager at AGROBELSA, HAME, Guatemala <ul style="list-style-type: none"> ❖ Co-managed a 10-ha banana plantation ❖ Conducted on-farm monitoring activities for black sigatoka (<i>Mycosphaerella fijiensis</i>), banana spider mite (<i>Olygonichus</i> sp.), and banana weevil (<i>Cosmopolites sordidus</i>) |

Aaron I. Plex Sulá

- ❖ Conducted chemical control activities for Moko disease of bananas (*Ralstonia solanacearum*)
- 2014-2015 **Project Manager, ENCA, Guatemala**
- ❖ Managed a small company of the mushroom *Pleurotus ostreatus* (16% net profit)
- 2013-2019 **Agricultural Training Program**
- Participated in the experiential learning programs offered by [Zamorano](#) and [ENCA](#)
- Gained extensive field and laboratory experience in the following four components
- ❖ Environmental sciences (e.g., forest management, natural resources conservation)
- ❖ Agricultural sciences (e.g., pest management, plant propagation)
- ❖ Agribusiness (e.g., cost-benefit analysis, marketing)
- ❖ Food sciences (e.g., dairy processing, honey processing)

Professional services

1. Journal Peer Reviews

2026

- ❖ Plant Pathology
- ❖ Agricultural Systems

2025

- ❖ European Journal of Plant Pathology
- ❖ Scientific Reports
- ❖ Phytopathology

2024

- ❖ Pest Management Science

2023

- ❖ Plants, People, Planet

2. Professional Meetings Organization

- ❖ Co-organized the biennial symposium on *Plant Pathology Research and Professional Development* (2026), University of Florida. Contact – Dr. Matthews Paret (paret@ufl.edu)

3. Conference Moderator

- ❖ Moderated Oral Technical Session VI in the *Joint Meeting of the Caribbean and Southern Division* (2025), Gainesville, FL.
- ❖ Moderated Session 3: Pathogen Dynamics and Dissemination in *Plant Pathology Research and Professional Development Symposium* (2024), Gainesville, FL. Contact – Dr. Erica Goss (emgoss@ufl.edu)
- ❖ Moderated the Technical Session: Regulatory Plant Pathology in *Plant Health* (2023), Denver, CO. Contact – Megan Boatman (mboatman@scisoc.org)

4. Community Outreach

- ❖ Provided a lecture to high-school teachers in *The Plant Pathology Professional Development for Teachers* (2024). Contact – Stephanie Killingsworth (skillingsworth@floridamuseum.ufl.edu)

5. Undergraduate Tutoring

- ❖ Supported the learning enhancement for over 100 international undergraduate students at Zamorano University, Honduras (2016-2019). Contact – Dr. Josue Molina (jmolina@zamorano.edu)

6. Elected Treasurer of the Plant Pathology Graduate Student Organization

- ❖ Helped organize budget requests and student events for the University of Florida Plant Pathology Department (Fall 2024 – Spring 2025). Contact – Christ Mane Belizaire

7. National Insect Collection

- ❖ Started a self-funded project to build the first insect collection of flesh flies (Sarcophagidae) in Guatemala. Contact – Dr. Enio Cano

Memberships (6)

- ❖ Member of the American Phytopathological Society (APS): 2020-2025.
- ❖ Member of the American Association for the Advancement of Science (AAAS): 2024-2025.
- ❖ Member of the APS Epidemiology Committee: 2024-2025.
- ❖ Member of the APS Emerging Diseases and Pathogens: 2024-2025.
- ❖ Member of the Network Science Society: 2025-2026.
- ❖ Member of the National Society of Leadership and Success (2025).
- ❖ Member of the Universal Circle of Philosophy Kurt Gödel (Honduras): 2020-2025.
- ❖ Member of the Club for Physics and Mathematics (Zamorano University): 2016-2019.

Technical skills

- ❖ Programming skills:
 - R (developer)
 - GitHub (frequent user)
 - University of Florida HiPerGator (frequent user)
 - Python (basics)
 - JavaScript (basics)
- ❖ Bioinformatics tools:
 - BEAST
 - AliView
 - MEGA 11
 - SplitsTree
 - RDP4
- ❖ Languages:
 - English (TOEFL Score > 80)
 - Spanish (native speaker)

Contact references (10)

- ❖ Dr. [Karen A. Garrett](#), Preeminent Professor, Plant Pathology Department, University of Florida (karengarrett@ufl.edu)
- ❖ Dr. [Luke Flory](#), Professor of Invasion Ecology and Associate Chair, Agronomy Department, University of Florida (flory@ufl.edu)
